

EXPERIENCE

Founding Product Designer, FitX Lab

Feb 2026 - Present

- Led **end-to-end design** of an AI-powered intelligent footwear platform integrating computer vision foot scanning, fit intelligence, personalization, and continuous feedback learning loop
- Designed and tested the core scan-to-order experience, achieving a **~90% first-time scan completion rate** and **~90% pilot-user retention** across follow-up testing; improved scan guidance and structured fit feedback, increasing usable scan and fit **data accuracy by 18%**.
- Built the product's **scalable design system** across mobile and web, including variables, responsive patterns, reusable components, and interaction guidelines; also shaped the brand, packaging, and NFC-enabled unboxing experience.

Product Designer, Brix

Dec 2024 - May 2025

- Led the **AI transformation** of Brix's Talent Search tool into the Mapping and Search Agents, introducing AI-driven profile generation based on user research and workflow analysis, accelerating decision-making by **28%**.
- Built transparent and explainable UX flows with visual feedback systems that strengthened user trust and drove a **95% satisfaction** across enterprise clients.
- **Partnered with founders and engineering teams** to align product vision and design strategy with business growth, contributing to **\$10M in new funding** and new customer acquisition.

Product Designer, OpusClip

Dec 2024 - Mar 2025

- Designed **OpusClip Mobile MVP**, extending the web-based AI video editor to a creator-first mobile experience **launched on the App Store with 4.9 stars**.
- Prioritized and refined key features for mobile workflows, reducing drop-offs during AI generation and achieving **26% day-1 retention** and **12% desktop-to-mobile shift**.
- Defined mobile UI patterns, motion, and visual craft to maintain brand consistency while optimizing for speed, clarity, and touch interaction.

Product Designer, Moka HR

Jul 2024 - Dec 2024

- Redesigned core interview scheduling and coordination workflows, introducing automated availability collection and calendar sync, **reducing manual HR effort by ~40%** and **shortening scheduling time by ~30%**.
- Improved candidate information display and interview feedback structure, enabling faster comparison and decision-making for hiring managers, contributing to a **~20% reduction in time-to-decision**.

EDUCATION

University of Chicago, MA

Sep 2022 - Jun 2024, IL

- Focus on **Human-Computer Interaction**
- Courses: Inclusive Technology Design, Deep Learning Systems, Machine Learning, etc.

Peking University, BA

Sep 2016 - Jul 2021, Beijing, China

AWARDS

Red Dot Design Award, iF Design Award Gold

2024 Winner, 2025 Winner

Recognized with **6 Red Dot Design Awards** and iF Design Award Gold prize, with winning projects featured in the official Yearbook and exhibited at the Red Dot Design Museum Berlin.

EXPERTISE

Design Skills

UI/UX Design, Web Design, Interaction Design, Product Strategy, Design Systems, Visual Design, B2B/B2C/Mobile App Design, Branding, Prototyping, Information Architecture, Vibe Coding, etc.

Research Skills

Qualitative & Quantitative Research, Competitive Analysis, Market Research, User Interviews, Usability Testing, User Journey, Survey, Data Analysis, Project Management, etc.

Tools & Softwares

Figma, FigJam, Framer, Sketch, Adobe Creative Suite (Ps, Ai, Ae, Id), Principle, Rive, Storyboard, Notion, Miro, HTML/CSS/Javascript, Python, R, C, Git/GitHub, Excel, Jira, Generative AI Tools, etc.
